1 Foxit Developer Cloud API Overview

By using Foxit PDF SDK for Web, developers can deploy and customize a Foxit PDF SDK for Web that supports viewing PDF documents within a web browser. Integrating a Foxit PDF SDK for Web into a zero-footprint web app allows end users to view PDF documents on desktop and mobile devices without installing anything.

Powered by Foxit's high fidelity rendering PDF engine

The core technology of Foxit PDF SDK for Web is based on Foxit's PDF engine, which is trusted by a large number of well-known companies. Foxit's powerful engine makes document viewing fast and consistent in all environments.

In addition, Foxit's products are offered with the full support of our dedicated support engineers if support and maintenance options are purchased. Updates are released on a regular basis. Foxit PDF SDK for Web will be the most cost-effective choice if you want to develop a cross-platform web PDF document viewer.

1.1 License

Developers are required to purchase licenses to use Foxit PDF SDK for Web in their solutions. Licenses grant users permission to release their applications based on Foxit PDF SDK for Web. However, users are prohibited to distribute any documents, sample codes, or source codes in the released packages of Foxit PDF SDK for Web to any third party without the permission from Foxit Software Incorporated.

2 Getting Started

2.1 Understanding the Developer Cloud API Platform

2.1.1 Dashboard

2.1.2 Understanding the APIs

2.1.3 Setting up Usage Quotas

2.1.4 Analytics

2.2 Creating and Working on Projects

2.2.1 Create a new project

3 Embedding the viewer

3.1 In a simple Website or Web application

3.1.1.1 Using HTML

3.1.1.2 Using JavaScript

3.1.2 In a Content Management System (CMS)

3.1.2.1 Wordpress

3.1.2.2 Wix

4 Customizing your viewer

4.1.1 Adding your logo

4.1.2 Changing viewer colors

4.1.3 Modifying toolbar and sidebar layouts

5 Technical Support

Reporting Problems

Foxit offers 24/7 support for its products and are fully supported by the PDF industry's largest development team of support engineers. If you encounter any technical questions or bug issues when using Foxit Developer Cloud API, please submit the problem report to our support team at <http://devcloudapi.foxitsoftware.com/support>.
